- (a) The applicant shall provide detailed information concerning professional qualifications, including the names of at least four (4) peer references (i.e., appropriate Practitioners in the same professional discipline as the applicant) who have extensive firsthand experience in observing and working with the applicant. The peer recommendations refer, as appropriate, to relevant training or experience, current competence, ethical conduct, fulfillment of obligations as a medical staff member, and any effects of health status on the privileges being recommended. Where feasible, two (2) of these references shall have served in a chief or supervisory capacity.

The applicant shall provide detailed information with respect to the circumstances of any of the foregoing.
- (c) The applicant shall disclose whether any malpractice or professional liability claim or claims against the applicant are pending and whether any previous claims have been settled or have resulted in a judgment. The applicant shall provide detailed information with respect to the circumstances of any of the foregoing.

The Credentials Committee shall make a reasonable inquiry into, and may require the applicant to submit reasonable evidence of, ability to perform the Clinical Privileges requested.

- (h) The application shall be submitted to the Medical Staff Services office for processing, including appropriate primary source verification of licensure, board certification, relevant training, experience, current competence, ability to perform privileges requested, professional liability insurance, and any other information deemed appropriate as identified in this Article. The application and verified information shall be reviewed by the Section Chief, if appropriate, and Department Chair for recommendation to the Credentials Committee. The Credentials Committee shall review and evaluate the application and if complete, shall forward a recommendation to the MSC who shall then forward a recommendation to the Board. A final decision by the Board shall be made within one hundred twenty (120) days of the recommendation of the Credentials Committee. If additional information is required, the application shall be deemed incomplete until such information is provided within a specified period of time. Once the required information is received, determination shall be made regarding the application's completeness, and a decision shall then be made within one hundred twenty (120) days of the determination of completeness. If the recommendation of the MSC to the Board is adverse, a decision shall be made in accordance with the provisions of Article Eleven.
- (i) Individuals in administrative positions who desire Medical Staff membership or Clinical Privileges shall be subject to the same procedures as all other applicants for membership or Privileges.

The Credentials Committee shall make a reasonable inquiry into, and may require the applicant to submit reasonable evidence of, the ability to perform the Clinical Privileges requested.
- (b) The Credentials Committee and then the MSC shall review all pertinent information available on each applicant for the purpose of determining its recommendations for reappointment to the Medical Staff and for granting Clinical Privileges for the ensuing period. This information shall include a recommendation from the appropriate Department Chair or Section Chief or a reference by another peer for members not known to the Department Chair or Section Chief. Where a change in Clinical Privileges is recommended, the reasons for such recommendation shall be stated and explained by the MSC.

- (c) The MSC shall make recommendations to the Board concerning the reappointment and/or Clinical Privileges of each applicant scheduled for periodic appraisal. Where a membership termination, a change in Clinical Privileges, or appointment for a period of less than two years is recommended, the reasons for such recommendation shall be stated and explained. In the event that reappointment is recommended for a period of less than two years, the applicant shall not have the right to a hearing or appellate review in accordance with the provisions of Article Eleven of these Bylaws unless the reappointment is for a period of less than six months.
- (d) Whenever failure to apply for reappointment results in the lapse of a Practitioner's appointment to the Medical Staff, the Practitioner shall be required to apply for Medical Staff membership in the same manner as one applying for initial appointment in order to reinstate his or her Medical Staff membership.

3.9 MEDICO-ADMINISTRATIVE OFFICERS

Notwithstanding any other provision of these Bylaws or of the Rules and Regulations, the provisions of Article Nine of these Bylaws and the contract between the Medico-Administrative Officer and the Hospital shall control matters relating to the removal of such Medico-Administrative Officer from office and the effect of removal on membership status and Clinical Privileges. Furthermore, the Hospital may provide by agreement with a Medico-Administrative Officer that membership on the Medical Staff and Clinical Privileges are contingent on, and shall expire simultaneously with, the agreement or understanding with such Medico-Administrative Officer. In the event that an agreement has such a provision or there is such an understanding, the provisions of these Bylaws, the Rules and Regulations, and the policies of the Medical Staff and of the Hospital with respect to hearings, appellate review, etc., shall not apply. Notwithstanding the existence of a contract between a Medico-Administrative Officer and the Hospital, a Medico-Administrative Officer seeking Medical Staff membership or Clinical Privileges must be appointed and, thereafter, reappointed to the Medical Staff and granted Clinical Privileges in accordance with these Bylaws.

Each Practitioner who seeks or holds Medical Staff membership shall satisfy, at the time of appointment and continuously thereafter, all of the basic qualifications set forth in these Bylaws as well as any additional qualifications that attach to the Medical Staff category to which such Practitioner seeks appointment or in which membership exists. 4.10 LIMITATION OF MEMBERSHIP PREROGATIVES

4.10.1 The Membership Prerogatives set forth under each Medical Staff category are general in nature and may be subject to limitation by special conditions attached to a Practitioner's Medical Staff membership by other Section of these Bylaws, and by other policies of the Hospital. The Membership Prerogatives of dentist and podiatrist members of the Medical Staff shall be limited to those for which they have demonstrated the requisite level of medical education, training, experience, and ability.

4.10.2 Any Medical Staff category change requires filing a written request and providing information as directed. The request must meet all the requirements for initial appointment to the category requested.

4.11 ALLIED HEALTH PROFESSIONAL STAFF

4.11.1 DEFINED

Allied health professionals shall be individuals, other than Physicians, dentists, and podiatrists, who are qualified to render patient care services within their areas of professional competence. AHPs shall serve patients who are the primary responsibility of members of the Medical Staff but shall not have the privilege to admit patients independently. Allied Health Professionals include, but are not limited to, individuals, such as physician assistants, nurse practitioners, certified registered nurse anesthetists, and certified nurse midwives who are permitted by law and by the Hospital to provide patient care services in accordance with their Clinical Privileges in collaboration with or under the supervision of a Medical Staff member.

4.11.2 QUALIFICATIONS OF ALLIED HEALTH PROFESSIONALS

Only an AHP holding a license, certificate, or such other credentials as may be required by applicable state law and satisfying the basic qualifications as generally set forth in Article Three and other Sections of these Bylaws, shall be eligible to provide patient care services in the Hospital. The MSC may establish additional qualifications required of members of any particular AHP discipline.

4.11.3 GENERAL PROVISIONS

- (a) AHPs shall be appointed and reappointed to one of the several Departments of the Medical Staff for periods not to exceed two years. In each category they shall be appointed and reappointed by the Board after submission of an application to the President of the Medical Staff and recommendation by the appropriate Chair, the Credentials Committee, and the MSC.
- (b) Clinical Privileges granted shall be based upon current licensure, registration or certification, individual training, experience, demonstrated competence and judgment, and current physical and mental health, and shall be within the scope of the professional activities they are legally authorized to perform. Members of the Allied Health Professional Staff shall be assigned by the MSC to an appropriate Department for supervision and assessment. Protocols for the supervision of supervised AHPs shall be described in Departmental policy and the individual AHP shall enter into a collaboration or supervision agreement with the collaborating or supervising Medical Staff member, with approval by the Department Chair and the MSC.
- (c) At all times a Physician member of the Medical Staff must be jointly responsible for the admission and medical care of any patient treated by a member of the Allied Health Professional Staff. Each person desiring appointment to the Allied Health Professional Staff must specify on the application form the physician member of the Active Medical Staff who will assume this joint responsibility. Such responsibility shall include supervision for the general medical care of the patient. In the event the responsible

physician becomes unavailable to fulfill the duties of supervision, it is the responsibility of the Allied Health Professional Staff Member to locate a new responsible physician.

- (d) Provisions in Article Eleven of these Bylaws relating to hearings and appellate review shall not apply to AHPs. The fair hearing and appellate review mechanism for AHPs shall be as follows. Adverse decisions related to appointment, reappointment, and/or Clinical Privileges may be appealed by the AHP to the Department Chair. The Chair's decision shall be in writing and shall explain the reasons for the decision. Upon request of the AHP, the Chair's decision shall be reviewed by the MSEC. The MSEC, at its discretion, shall determine the process to be followed, provided that the AHP shall be permitted to appear at a regular or special meeting of the MSEC and shall have the right to file a written statement. The MSEC's decision shall be in writing and shall explain the reasons for the decision. The AHP subsequently shall have the right to appeal the MSEC's decision to the Board or a committee of the Board. The Board or its committee, at its discretion, shall establish the process to be followed, provided that the AHP shall be permitted either to make an oral statement or to file a written statement. The decision of the Board or its committee shall be in writing and shall be final. The MSEC and the Board shall establish reasonable time frames within which their respective reviews shall take place and their respective decisions shall be rendered. Notwithstanding the foregoing, the appointment and Clinical Privileges of an AHP shall automatically terminate in the event the AHP's employment by the Hospital terminates or the AHP is no longer supervised by a Medical Staff member, and such termination shall be without right of hearing or appellate review.
- (e) AHPs are not deemed to be members of the Medical Staff. However, the various provisions of these Bylaws and the accompanying Rules and Regulations shall apply to them only where specifically provided, or where the context requires application.
- (f) Each AHP shall maintain the confidentiality of and shall not disseminate to any person other than as permitted or required by law, any health information submitted, collected, prepared or obtained while (i) treating patients at Hospital, (ii) obtaining payment for services rendered at Hospital, or (iii) assisting with health care operations of Hospital. Each AHP shall comply with the Hospital's Notice of Privacy Practices and privacy policies as well as with all applicable state and federal laws and regulations while providing services at Hospital. In the event that an AHP fails to comply with this Section 4.11.3(f), the President of the Medical Staff, Department Chair or Section Chief shall issue a written warning to the AHP. If after receipt of a written warning, the AHP fails to comply with this Section 4.11.3(f), the AHP's (a) Clinical Privileges and (b) right to treat patients and to consult with respect to patients shall be suspended by the President of the Medical Staff, Department Chair, or Section Chief effective immediately and continuing until the earlier of thirty (30) days from the effective date of the suspension or such date on which the AHP agrees in writing to comply with the confidentiality of health information requirements.

Except as set forth below, the provisions of these Bylaws regarding due process applicable to AHPs, including but not limited to Section 4.11.3(d), shall not apply. In the event that an AHP fails to agree in writing to comply with the confidentiality of health information requirements of Sections 3.6.8 and 3.6.9 within ten (10) days from the effective date of a suspension permitted by this Section 4.11.3(f) or concurrent with the second suspension of an AHP pursuant to this Section 4.11.3(f), the Department Chair shall take all appropriate corrective action necessary to resolve the AHP's failure to comply with this Section 4.11.3(f). Thereafter, the procedures of Section 4.11.3(d), if applicable, shall apply.

4.11.4 AVAILABILITY OF PRIVILEGING INFORMATION

The list of Privileges granted to AHPs shall be available to authorized staff by print or electronic means.

4.12 DUES

Members of the Medical Staff are required to pay membership dues and assessments as may be recommended by the MSEC. A Practitioner exercising emergency Privileges shall be obligated to summon all consultative assistance deemed necessary and to arrange for appropriate follow-up care.

5.5.2 DISASTER PRIVILEGES

Physicians who are not currently members of the Middlesex Hospital Medical Staff may be granted disaster privileges during an "emergency" situation, where an "emergency" is defined as an activation of the Emergency Management Plan. The Middlesex Command Center, in consultation with the President of the Medical Staff or his designee, will reasonably exhaust the resources of current members of the Medical Staff before accepting or soliciting support from outside Physicians. the clinical privileges requested. Special requirements of consultation and reporting shall be imposed by the Department Chair or Section Chief responsible for the Practitioner. Temporary Privileges shall not be granted unless the Practitioner has agreed in writing to abide by the Bylaws, Rules and Regulations, and policies of the Medical Staff and the Hospital in all matters relating to the temporary Privileges granted. Said Bylaws, Rules and Regulations, and policies shall control in all matters relating to the exercise of temporary Privileges. All temporary Privileges of applicants shall be specifically delineated.

5.6.2 CIRCUMSTANCES

Upon the written concurrence of the Department Chair where the Privileges will be exercised, or the President of the Medical Staff if the Chair is unavailable, the President of the Hospital or his designee, after appropriate verification, may grant temporary Privileges in the following circumstances:

- (a) Pendency of Application: After receipt of a completed and verified application for Medical Staff appointment and a written request for specific temporary Privileges for a period of up to one hundred twenty (120) days, subject to the recommendation of the Department Chair. The completed application must indicate that the applicant has (1) no current or previously successful challenge to licensure or registration; (2) not been subject to involuntary termination of medical staff membership at another organization; and (3) not been subject to involuntary limitation, reduction, denial, or loss of Clinical Privileges. This shall be done only when appointment without undue restriction is anticipated.
- (b) Care of Specific Patients: Upon receipt of a written request for specific temporary Privileges for the care of one or more specific patients from a Practitioner who is not an applicant for Medical Staff membership. Such privileges shall be granted for a defined period not to exceed sixty (60) days consecutively, with one (1) renewal of an additional period of sixty (60) days.

5.6.3 TERMINATION OF TEMPORARY PRIVILEGES

The President of the Hospital or his designee shall, on the discovery of any information or the occurrence of any event of a nature which raises questions about a Practitioner's professional qualifications or ability to exercise all or any of the temporary Privileges granted, and may at any other time after consultation with the Chair or Chief responsible for supervision, terminate all or any of a Practitioner's

temporary Privileges, provided that where the life or well-being of a patient is determined to be endangered, the termination may be effected by any person entitled to impose summary suspensions under these Bylaws. In the event of any such termination, the Practitioner's patients then in the Hospital shall be assigned to another Practitioner by the Chair or Chief responsible for the Practitioner. The wishes of the patient shall be considered, where feasible, in choosing a substitute Practitioner.

5.6.4 RIGHTS OF THE PRACTITIONER

A Practitioner shall not be entitled to the procedural rights afforded by the Bylaws in the event that the Practitioner's request for temporary Privileges is refused or such granted temporary privileges are subsequently terminated pursuant to Section 5.6.3 hereof.

All collegial intervention efforts by Medical Staff leaders and Hospital administration are part of the Hospital's performance improvement and professional peer review activities.

10.2 DISCRETIONARY INTERVIEW PRIOR TO CORRECTIVE ACTION

Prior to initiating corrective action against a member of the Medical Staff, the initiating party may, but is not obligated to, afford the Practitioner a formal interview at which the circumstances prompting the corrective action shall be discussed and the Practitioner shall be permitted to present relevant information in the Practitioner's own behalf. A formal interview shall be initiated by Special Notice to the Practitioner from the Chair of the appropriate Department or President of the Medical Staff, with copies transmitted to the President of the Medical Staff and the members of the MSEC (if initiated by a Department Chair). The President of the Medical Staff may be present as an observer at a formal interview. If the Practitioner fails to respond to the Special Notice or declines to participate in the interview, corrective action shall immediately proceed in accordance with these Bylaws. The formal interview provided in this Section 10.2 is not a procedural right of the Practitioner and shall not be conducted according to the procedural rules provided in Article Eleven of these Bylaws. The Practitioner shall not be permitted to bring an attorney or other representative to formal interviews.

10.3 ROUTINE CORRECTIVE ACTION

Whenever a member of the Medical Staff with Clinical Privileges engages in, makes or exhibits acts, statements, demeanor or professional conduct, either within or outside of the Hospital, and the same is, or is reasonably likely to be, detrimental to patient safety or to the delivery of quality patient care, disruptive to Hospital or Hospital operations or an impairment to the community's confidence in the Hospital, evaluating the possible need for corrective action or proceeding with corrective action against the Practitioner may be initiated by an officer of the Medical Staff, by the Chair of any Department or Chief of any Section in which the Practitioner holds membership or exercises Clinical Privileges, by the President of the Hospital, or by the Board.

10.3.1 REQUESTS AND NOTICES

All requests for corrective action shall be in writing, submitted to the MSEC, and supported by reference to the specific activities or conduct constituting the grounds for the request.

10.3.2 INVESTIGATION

After deliberation, the MSEC shall either act on the request or direct that an investigation concerning the grounds for the corrective action request be undertaken. The MSEC shall conduct such investigation itself or assign this task to a Medical Staff officer, Department or Section, standing or ad hoc committee, or other organizational component of the Medical Staff. Expert assistance may be obtained to assist in an investigation. This investigative process is not a “hearing” as that term is used for purposes of hearing and appellate review. It may include a consultation with the Practitioner involved and with the individuals who may have knowledge of the events involved. If the investigation is conducted by a group or individual other than the MSEC, that group or individual shall forward a written report of the investigation to the MSEC as soon as is practicable. Failure to submit information requested by the MSEC (or a Medical Staff officer, Department or Section, standing or ad hoc committee, or other organizational component of the Medical Staff) as part of an investigation within the time specified in the request shall result in voluntary relinquishment of Privileges and Medical Staff membership. The MSEC may at any time within its discretion, terminate the investigative process and proceed with action as provided below. If an investigation is conducted by the MSEC pursuant to a request or inquiry by the Board, the results of such investigation and recommendation shall be forwarded to the Board.

10.3.3 MEDICAL STAFF EXECUTIVE COMMITTEE ACTION

As soon as is practicable after the conclusion of the investigative process, if any, but in any event within thirty (30) days after receipt of the request for corrective action, unless deferred, the MSEC shall act upon such request. Its action may, without limitation, recommend:

- (a) Rejection of the request for corrective action.
- (b) A warning or formal letter of reprimand.
- (c) A probationary period with monitoring of cases but without special requirements of prior or concurrent consultation or direct supervision.
- (d) Suspension of Membership Prerogatives that do not affect Clinical Privileges.
- (e) Individual requirements of consultation or supervision.
- (f) Reduction, suspension, or revocation of Clinical Privileges.

- (g) Reduction of Medical Staff category or suspension or limitation of any Membership Prerogatives directly related to the Practitioner's provision of patient care.
- (h) Suspension or revocation of Medical Staff membership.
- (i) Further inquiry or other appropriate action.

10.3.4 DEFERRAL

If additional time is needed to complete the investigative process, the MSEC may defer action on the request for good cause. A subsequent recommendation for any one or more of the actions provided in Section 10.3.3 shall be made as promptly as possible.

10.3.5 PROCEDURAL RIGHTS

A recommendation made by the MSEC pursuant to Section 10.3.3 for individual consultation, decreased Privileges, reduced Medical Staff category (other than any automatic reductions in Medical Staff category for failure to satisfy the qualifications of such category pursuant to Sections 4.2.4 and 4.2.5 of these Bylaws), diminished or suspended Membership Prerogatives affecting Clinical Privileges, or suspended or revoked Medical Staff membership shall be deemed "adverse" and shall entitle the Practitioner to the procedural rights contained in Article Eleven.

10.3.6 OTHER ACTION

A recommendation made by the MSEC pursuant to Section 10.3.3 for rejection, warning/reprimand, probation with monitoring, or diminished Membership Prerogatives that do not affect Clinical Privileges shall not be deemed "adverse."

10.4 SUMMARY SUSPENSION

10.4.1 SUMMARY SUSPENSION

The President of the Hospital, the chair of the Board, and the President of the Medical Staff, or their respective delegates, shall each have the authority to summarily suspend all or a portion of the Clinical Privileges or the Medical Staff membership of a Practitioner where the failure to take such an action could result in an imminent danger to the health of any individual. Such suspension shall become effective immediately upon imposition.

10.4.2 MEDICAL EXECUTIVE COMMITTEE ACTION

As soon as possible, but in any event within five (5) business days after a summary suspension is imposed, the MSEC shall convene to review and consider the action taken. The MSEC may recommend modification, continuation, or termination of the suspension.

10.4.3 PROCEDURAL RIGHTS

If the MSEC recommends immediate termination or modification of the suspension to one of the sanctions provided for in Section 10.3.3 (e) through (h), the Practitioner shall be entitled to the procedural rights contained in Article Eleven. If such procedural rights are exercised, the hearing and appellate review process concerning the summary suspension may be combined with the hearing and appellate review process for other related adverse actions.

10.4.4 OTHER ACTION

An MSEC recommendation to terminate or modify the suspension to a lesser sanction not triggering procedural rights shall be transmitted immediately, together with all supporting documentation, to the chair of the Board and the President of the Hospital. The terms of the summary suspension as originally imposed shall remain in effect pending a final decision by the Board, as applicable.

10.5 AUTOMATIC REVOCATION, RESTRICTION, SUSPENSION OR PROBATION

10.5.1 LICENSE

- (a) Revocation: Whenever a Practitioner's license to practice in Connecticut is revoked or voluntarily relinquished, the Practitioner's Medical Staff membership and Clinical Privileges shall be immediately and automatically revoked without resort to the provisions of Article Eleven. 10.5.2. DEPARTMENT OF CONSUMER PROTECTION (DCP) AND DRUG ENFORCEMENT ADMINISTRATION (DEA)

- (a) Revocation: Whenever a Practitioner's controlled substance registration with either the DEA or DCP is revoked or voluntarily relinquished, the Practitioner shall be immediately and automatically divested of the right to prescribe medications covered by the registration. Further action on the matter shall proceed under Section 10.5.4.
- (b) Restriction: Whenever a Practitioner's controlled substance registration with either the DEA or DCP is partially restricted or limited in any way, the Practitioner's right to prescribe medications covered by the registration shall be similarly restricted or limited effective upon, for at least the term of, and consistent with any other conditions of the restriction or limitation. Further action on the matter shall proceed under Section 10.5.4.
- (c) Suspension: Whenever a Practitioner's controlled substance registration with either the DEA or DCP is suspended, the Practitioner shall be divested of the right to prescribe medications covered by the registration effective upon and for at least the time of the suspension. Further action on the matter shall proceed under Section 10.5.4, below.
- (d) Probation: Whenever Practitioner is placed on probation, insofar as the use of the controlled substance registration is concerned, action on the matter shall proceed under Section 10.5.4 below.
- (e) Non-Renewal: Whenever a Practitioner's controlled substance registration with either the DEA or DCP lapses due to non-renewal the Practitioner shall be divested of the right to prescribe medications covered by the controlled substance registration effective upon the date of expiration and for the duration of time until a valid controlled substance registration is reinstated.
- (f) In the event of revocation, restriction, suspension or probation of a Practitioner's right to prescribe medications pursuant to this Section 10.5.2, the provisions of Article Eleven of these Bylaws shall not apply.

10.5.3 EXCLUSION FROM PARTICIPATION IN FEDERALLY FUNDED HEALTHCARE PROGRAMS

- (a) Whenever a Practitioner is listed as being barred from participation in Medicare, Medicaid or such other federally or state funded healthcare programs, the Practitioner's Medical Staff Membership and Clinical Privileges shall automatically be revoked.
- (b) In the event of a revocation of a Practitioner's Staff Membership or Clinical Privileges pursuant to this Section 10.5.3, the provisions of Article Eleven of these Bylaws shall not apply.

10.5.4 MEDICAL STAFF EXECUTIVE COMMITTEE DELIBERATION

As soon as practicable (a) after Practitioner's license is revoked, restricted, suspended, or placed on probation, or (b) after a Practitioner's controlled substance registration is revoked, restricted, suspended or placed on probation, the MSEC shall convene to review and consider the facts upon which such action was taken. The MSEC may then recommend such further corrective action as is appropriate to the facts disclosed in the investigation, including limitation of Membership Prerogatives. Thereafter, the procedure in Section 10.3.5 or 10.3.6, as applicable, shall be followed.

10.5.5 MEDICAL RECORDS

After a written warning for failure to complete medical records in a timely fashion, if the Practitioner or AHP has not completed such medical records within the timeframe set forth in the written warning (a) a Practitioner's or AHP's Clinical Privileges (except with respect to patients already in Hospital), and a Practitioner's or AHP's (to the extent applicable) right to admit patients, to schedule procedures, and to consult with respect to patients, and (b) voting and office-holding Membership Prerogatives may be suspended by the MSEC effective on the date specified in the written warning and continuing until the delinquent medical records are completed. The Practitioner or AHP shall be notified of the suspension by the President of the Medical Staff. The provisions of Article Eleven shall not apply. The MSEC may recommend further corrective action in the event that the Practitioner or AHP is suspended more than once in any six (6) month period or otherwise demonstrates a pattern of failing to complete medical records in a timely manner. In such event, the procedure in Section 10.3.5 or 10.3.6, as applicable, shall be followed.

10.5.6 PROFESSIONAL LIABILITY INSURANCE

For failure to maintain the minimum amount of professional liability insurance, if any, required in accordance with these Bylaws, a Practitioner's medical and Clinical Privileges shall be immediately suspended. In the event of such suspension, the provisions of Article Eleven of these Bylaws shall not apply, and the Practitioner's Medical Staff membership and Clinical Privileges shall remain suspended until such time as the Practitioner obtains the specified minimum amount of professional liability insurance and provides proof thereof to the President of the Medical Staff. If a suspension under this Section is in effect at the time of reappointment, the member's Medical Staff appointment shall terminate and the provisions of Article Eleven shall not apply.

10.5.7 FAILURE TO MAINTAIN THE CONFIDENTIALITY OF HEALTH INFORMATION

- (a) In the event that a Practitioner fails to comply with the confidentiality of health information requirements set forth in Sections 3.6.8 and 3.6.9 of these Bylaws, the President of the Medical Staff, Department Chair, or Section Chief shall issue a written warning to the Practitioner. If after receipt of a

written warning, the Practitioner fails to comply with the confidentiality of health information requirements, the Practitioner's (a) Clinical Privileges, (b) right to admit patients and to consult with respect to patients, and (c) voting and office-holding Membership Prerogatives shall be suspended by the President of the Medical Staff, Department Chair, or Section Chief effective immediately and continuing until the earlier of thirty (30) days from the effective date of the suspension or such date on which the Practitioner agrees in writing to comply with the confidentiality of health information requirements. Except as provided in Section 10.5.7(b) the provisions of Article Eleven shall not apply.

Thereafter, the procedures for corrective action set forth in Article Eleven shall apply.

ARTICLE 11. PROCEDURAL RIGHTS

In the event that any other provision of these Bylaws provides that Article Eleven does not apply to a particular action or decision, then the provisions of this Article shall not apply regardless of whether the action or decision otherwise would appear to be subject to this Article.

11.1 STANDARDS FOR PROFESSIONAL ACTIONS

11.1.1 IN GENERAL

All professional review actions shall be taken:

- (a) In the reasonable belief that the action is in furtherance of quality health care.
- (b) After a reasonable effort to obtain the facts of the matter.
- (c) In the case of adverse professional review actions, after adequate notice and hearing procedures are afforded to the Practitioner, as set forth in these Bylaws, or after such other procedures as are fair to the Practitioner under the circumstances.

11.2.3 ACTIONS NOT DEEMED ADVERSE

Only actions specified in Section 11.2.1 shall entitle the Practitioner to any hearing or appellate review rights. Actions in regard to members of the AHP staff are not subject to the provisions of this Article Eleven and are provided for in Section 4.11.3 (d). Furthermore, the following actions or circumstances shall not entitle the Practitioner to any hearing or appellate review rights:

- (a) The issuance of a warning.

11.3 PROCEDURES FOR HEARINGS AND APPELLATE REVIEWS

All hearings and appellate reviews shall be conducted in accordance with the procedures and safeguards set forth in this Article to assure that the affected Practitioner is accorded all rights to which the practitioner is entitled.

11.3.1 RIGHT TO HEARING AND TO APPELLATE REVIEW

- (a) When any Practitioner receives Special Notice of a recommendation by the MSEC that, if ratified by decision of the Board, will adversely affect the Practitioner's appointment to or status as a member of the medical Staff or the Practitioner's exercise of Clinical Privileges, the Practitioner shall, upon proper and timely request, be entitled to a hearing before an ad hoc committee of the Medical Staff. If the recommendation of the MSEC following such hearing is still adverse, the Practitioner shall, upon proper and timely request, then be entitled to an appellate review by the Board before the Board makes a final decision on the matter.
- (b) When any Practitioner receives Special Notice of a decision by the Board that will adversely affect the Practitioner's appointment or status as a member of the Medical Staff or the Practitioner's exercise of Clinical Privileges, and such decision is not based on a prior adverse, recommendation by the MSEC with respect to which the Practitioner was entitled to a hearing and appellate review, the Practitioner shall, upon proper and timely request, be entitled to an appellate review by the Board, before the Board makes a final decision on the matter. Such appellate review shall be conducted by Board members who did not participate in the hearing or on the hearing committee.

11.3.2 REQUEST FOR HEARING

- (a) The President of the Medical Staff shall be responsible for giving prompt Special Notice of an adverse recommendation or decision to the affected Practitioner who shall be entitled to a hearing or to an appellate review. Such special Notice shall state (1) that a professional review action has been proposed to be taken against the Practitioner and the reasons for the proposed action; (2) that the Practitioner has a right to request a hearing on the proposed action and that a request for a hearing must be made in writing within thirty-five (35) days; and (3) a summary of the Practitioner's rights in the hearing. A copy of these Bylaws with regard to hearing and appellate review shall accompany this Notice.
- (b) The failure of a Practitioner to request a hearing to which the Practitioner is entitled by these Bylaws within thirty-five (35) days and in the manner herein provided shall be deemed a waiver of the Practitioner's right to such hearing and to any appellate review to which the Practitioner might otherwise have been entitled on the matter.
- (c) When the waived hearing or appellate review relates to an adverse recommendation of the MSEC or of a hearing committee appointed by the Board, the same shall become and remain effective against the Practitioner pending the Board's final decision on the matter. When the waived hearing or appellate review relates to an adverse decision by the Board, the same shall become and remain effective against the Practitioner in the same manner as a final decision of the Board provided for in Section 11.3.7 of this Article. In either of such events, the President of the Medical Staff shall promptly notify the affected Practitioner of the Practitioner's status by Special Notice.

11.3.3 NOTICE OF HEARING

- (a) Within thirty (30) days after receipt of a request for a hearing from a Practitioner entitled to the same, the MSEC or the Board, as the case may be, shall schedule and arrange for such a hearing and shall, through the President of the Medical Staff, notify the Practitioner of the time, place, and date of the hearing, by Special Notice. The hearing date shall be not less than thirty-five (35) days or more than ninety (90) days from the date of the Special Notice to the Practitioner. Granting of an earlier hearing or a postponement shall be made in the sole discretion of the hearing committee.
- (b) The notice of hearing shall state in concise language the acts or omissions with which the Practitioner is charged, a list of specific or representative charts being questioned or the other reasons or subject matter that was considered in making the adverse recommendation or decision. Such notice shall contain a list of the witnesses (if any) expected to testify at the hearing on behalf of the MSEC or the Board. Additional witnesses may be called as necessary and notice that they will be called shall be provided whenever possible.

11.3.4 COMPOSITION OF HEARING COMMITTEE

- (a) When a hearing relates to an adverse recommendation of the MSEC, such hearing shall be conducted by an ad hoc hearing committee of not less than three (3) members of the Medical Staff appointed by the President of the Medical Staff in consultation with the MSEC and one (1) of the members so appointed shall be designated as chair. No Medical Staff member who has actively participated in the consideration of the adverse recommendation shall be appointed a member of this hearing committee unless it is otherwise impossible to select a representative group due to the size of the Medical Staff. No individual who is in direct economic competition with the Practitioner involved shall be appointed a member of this hearing committee.
- (b) When a hearing relates to an adverse decision of the Board that is not based on a prior adverse recommendation of the MSEC, the Board shall appoint a hearing committee of not less than three (3) members to conduct such hearing and shall designate one (1) of the members of this committee as chair. At least one (1) representative from the Medical Staff shall be included on this committee. No individual who is in direct economic competition with the Practitioner involved shall be included on this committee.

11.3.5 CONDUCT OF HEARING

- (a) There shall be at least a majority of the members of the hearing committee present when the hearing takes place, and no member may vote by proxy.
- (b) An accurate record of the hearing shall be kept. The mechanism shall be established by the ad hoc hearing committee, and may be accomplished by use of a court reporter, electronic recording unit, detailed transcription or by the taking of adequate minutes. The Practitioner for whom the hearing is held has the right to obtain copies of the records upon payment of any reasonable charges.
- (c) The personal presence of the Practitioner for whom the hearing has been scheduled shall be required. A Practitioner who fails without good cause to appear and proceed at such hearing shall be deemed to have waived the rights herein provided in the same manner as provided in Sections 11.3.2 (b) and (c) of this Article and to have accepted the adverse recommendation or decision involved and the same thereupon shall become and remain in effect as provided in said Sections.
- (d) The affected Practitioner shall be entitled to be accompanied and/or represented at the hearing by an attorney or other person of the Practitioner's choice. The presenter of the adverse recommendation or decision as well as the hearing committee also may be represented by counsel.

- (e) Either a hearing officer, if one is appointed, or the chair of the hearing committee or the hearing officer's or chair's designee shall preside over the hearing to determine the order of procedure during the hearing, to assure that all participants in the hearing have a reasonable opportunity to present relevant oral and documentary evidence, and to maintain decorum. The hearing officer or the chair of the hearing committee shall be a Physician. Any person who does not comply with the orders or ruling of the chair or hearing officer, or who ignores such orders or rulings and, for example, continues to make repetitive objections or submit repetitive testimony, may be required by the hearing committee to leave the hearing.
- (f) The hearing shall not be conducted according to rules of evidence. Any relevant matter upon which responsible persons customarily rely in the conduct of serious affairs shall be considered, regardless of the existence of any common law or statutory rule which might make the evidence inadmissible over objection in civil or criminal action. The Practitioner for whom the hearing is being held shall, prior to, during, or at the close of the hearing but not subsequent thereto, be entitled to submit memoranda concerning any issue of procedure or of fact and such memoranda shall become a part of the hearing record.
- (g) The MSEC, when its action has prompted the hearing shall appoint one of its members or some other Medical Staff member to represent it at the hearing, to present the facts in support of its adverse recommendations and to examine witnesses. The Board, when its action has prompted the hearing, shall appoint one of its members to represent it at the hearing, to present the facts in support of its adverse decision and to examine witnesses. It shall be the obligation of such representative to present appropriate evidence in support of the adverse recommendation or decision.
- (h) The affected Practitioner shall have the following rights: to call and examine witnesses; to introduce any evidence determined to be relevant by the hearing officer or the chair of the hearing committee, as applicable, regardless of its admissibility in a court of law; to cross-examine any witness on any matter relevant to the issue of the hearing; to challenge any witness, to rebut any evidence and to submit a written statement at the close of the hearing. If the Practitioner does not testify in the Practitioner's own behalf, the Practitioner may be called and examined as if under cross-examination. The affected Practitioner shall provide the hearing committee and the presenter of the adverse recommendation with a list of witnesses expected to testify at least five business days in advance of the hearing. Additional witnesses may be called as necessary and notice that they will be called shall be provided whenever possible.
- (i) At its discretion, the hearing committee may call its own witnesses or obtain expert assistance in connection with any matter pending before it. Any written reports by such experts shall be provided to all parties to the hearing. The hearing committee may, without Special Notice, recess the hearing and reconvene the same for the convenience of the participants or for the purpose

of obtaining new or additional evidence or consultation. Upon conclusion of the presentation of oral and written evidence, the hearing shall be closed. The hearing committee shall thereupon, at a time convenient to itself, conduct its deliberations outside the presence of the Practitioner for whom the hearing was convened.

- (j) After final adjournment of the hearing, the hearing committee shall promptly prepare a written report and recommendation and shall forward the same together with the hearing record and all other documentation to the MSEC or to the Board, whichever appointed it. The report may recommend confirmation, modification, or rejection of the original adverse recommendation of the MSEC or decision of the Board, and shall include a statement of the basis for the recommendation. The Practitioner shall be given a copy of the report and shall be advised of the Practitioner's right to request an appellate review in accordance with these Bylaws.
- (k) The MSEC, when its action has prompted the hearing, shall consider the recommendations of the hearing committee and may accept, modify, or reject such recommendations. The MSEC shall then make written recommendations to the Board which shall include a statement of the basis for its recommendations. The Practitioner shall be given by Special Notice a copy of the written recommendation of the MSEC and written notices of the Practitioner's right under these Bylaws to request, within thirty (30) days of the date of said Notice, an appellate review.
- (l) The Board, when its action has prompted the hearing, shall receive the recommendations of the hearing committee and shall notify the Practitioner by Special Notice of the Practitioner's right under these Bylaws to request within thirty (30) days an appellate review by the Board.

11.3.6 APPEAL TO THE BOARD

- (a) Within thirty (30) days after receipt of a Special Notice by an affected Practitioner of an adverse recommendation made after a hearing as above provided, the Practitioner may, by Special Notice to the Board delivered to the President of the Hospital, request an appellate review by the Board. The Practitioner may file a written statement and/or request that oral argument be permitted.
- (b) If such appellate review is not requested within thirty (30) days, the affected Practitioner shall be deemed to have waived the Practitioner's right to the same and to have such adverse recommendation or decision and the same shall become effective immediately as provided in Section 11.3.7 of this Article.
- (c) Promptly after receipt of such request for appellate review, the Board shall schedule a date for such a review, including a time and place for oral argument if such has been requested, and shall, through the President of the Hospital by Special Notice, notify the affected Practitioner of the same. The

date of the appellate review ordinarily shall be not less than thirty (30) days or more than sixty (60) days from the date of receipt of the request for appellate review, except that when the Practitioner requesting the review is under a suspension which is then in effect, upon the request of the Practitioner, such review shall be scheduled as soon as arrangements for it may reasonably be made. For good cause shown, the Board or a duly appointed appellate review committee may, in its sole discretion, extend the time period for appellate review.

- (d) The appellate review shall be conducted by the Board or by a duly appointed appellate review committee of the Board of not less than seven (7) members. If the adverse recommendation being reviewed was made by a hearing committee appointed by the Board, appellate review shall be by a committee of the Board made up of members who did not participate in the hearing or on the hearing committee.
- (e) The affected Practitioner shall have access to the report and any available transcription of the hearing and all other written material, favorable or unfavorable, that was considered in making the adverse recommendation or decision against the Practitioner. The Practitioner shall have the opportunity to submit a written statement in the Practitioner's behalf, in which those factual and procedural matters with which the Practitioner disagrees, and the Practitioner's reasons for such disagreement, shall be specified. This written statement may cover any matters raised at any step in the procedure to which the appeal is related, and legal counsel may assist in its preparation. Such written statement shall be submitted by the Practitioner via Special Notice to the Board through the President of the Hospital at least fifteen (15) days prior to the scheduled date for the appellate review; a copy also shall be simultaneously provided to the MSEC, to the hearing committee, and to the representative presenting the adverse decision or recommendation. A similar statement may be submitted by the MSEC or by the hearing committee appointed by the Board and, if submitted, the President of the Hospital shall provide by Special Notice a copy thereof to the Practitioner at least fifteen (15) days prior to the date of such appellate review.
- (f) The Board or its appointed review committee shall act as an appellate body. It shall review the record created in the proceedings and shall consider the written statements submitted pursuant to subparagraph (e) of this Section for the purpose of determining whether the adverse recommendation or decision against the affected Practitioner was justified and was not arbitrary or capricious. If oral argument is requested as part of the review procedure, the affected Practitioner shall be present at such oral argument, shall be permitted to speak against the adverse recommendation or decision and shall answer questions raised by any member of the appellate review body.
