

Radiology Online Ordering Manual and Information

Welcome to the Middlesex Health Department of Radiology Online Ordering Manual and Information Guide. This portion of our website is devoted to providing our referring physician offices with the most up-to-date information for ordering tests for their patients. Previously we had distributed hard copy manuals, however with frequent changes in test preparations and other important information, the best way to ensure you have the very latest is to keep the manual online. This allows us to make "real-time" changes as needed. If you would like to see changes and/or additions to this site, please call or e-mail Sandy Phillips, Director of Radiology, at 860-358-4920 (sandra.phillips@midhosp.org).

We encourage you to bookmark this site and refer to it when you are sending patients to Middlesex Hospital for Radiology tests.

If you would like more information about what is the best test to order, [The American College of Radiology](#) website may provide some additional assistance.
